Web Portal Walkthrough

Here at Nationwide Property Solutions, we are firm believers of "Simplicity is Best" which is why we have formulated a web portal that is very efficient but also very simple.

Below is a demonstration as to just how easy it is to log into your very own account which is totally free of charge, great for the environment and very easily accessible from several mediums including Blackberry®™ and your PC. This enables you to track and monitor existing orders or quotation requests which you have placed from the comfort of your desk or whilst on the move—we have thought of everything! Our aim is to streamline your operations, helping you to concentrate more on the running of your business with the additional worries of having to chase suppliers all the time.
